## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

## **DETAILED ACTION**

Claims 1-109 are currently pending.

Response to Restriction requirement filed 09/14/2006 is acknowledged. Applicant confirmed election of Group XIII, claims 41-49, 103 without traverse. Claims 1-40, 50-102, 104-109 are withdrawn from consideration.

Upon further consideration of the elected claims the following restriction and election of species requirement was deemed necessary.

### **Restriction Requirement**

Restriction to one of the following inventions is required under 35 U.S.C. 121:

XIII.A. Claims 41-49, drawn to method of identifying protein residues clusters, classified in class 702, subclass 19.

XIII.B. Claim 103, drawn to a computer system, classified in class 707, subclass 12.

The inventions are distinct, each from the other because of the following reasons:

Computer system of Group XIII.B is independent from method of Group XIII.A as it can be used for other computational methods, and because method of Group XII.B can be practiced by another materially different apparatus or by hand.

**Election of Species Requirement**

Election of species should be required prior to a search on the merits in all applications containing both species claims and generic or Markush claims.(MPEP 808.01(a))

This application contains claims directed to the following patentably distinct species of the claimed invention.

(A) "Functional annotation score" can be one dimensional, as in claim 42, or two-dimensional, as in claims 44,45, or four dimensional, as in claim 46.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from group (A) above for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141 . If claims

are added after the election, applicant must indicate which are readable upon the elected species. MPEP 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

To be complete, a response to the election of species requirement should include a proper election along with a listing of all claims readable thereon, including any claims subsequently added. MPEP 809.02(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Borin whose telephone number is (571) 272-0713. The examiner can normally be reached on 9am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew Wang can be reached on (571) 272-0811. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
